

Good Practice: Developing a Sexual Health Policy

Next Training Dates: Check www.hivireland.ie for upcoming dates.

This one-day training is co-facilitated by HIV Ireland and the National Youth Council of Ireland.

Who is the training for?

This course will be of interest to workers who are addressing the sexual health needs of young people through the provision of education, support and advocacy services as well as other related service provision.

Aim of the Training

This one-day training aims to increase the knowledge and skills of participants to support the development of a policy in sexual health within their respective organisations.

Learning Outcomes

By the end of the training, participants will have:

- increased awareness of national policy in this regard, including the National Sexual Health Strategy and Better Outcomes, Brighter Futures;
- increased awareness of the rationale for policy development in sexual health;
- increased knowledge of the role of policy in relation to sexual health promotion;
- increased skills in developing a policy in sexual health;
- increased confidence in implementing a policy in sexual health.
