Migration means of access...

Who or what is a ‘migrant’?

- Immigration Processes – Visas, work / study permit, others
- In the main - rigid administrative system (? Overly bureaucratic, complex / lengthy, ?? Person centred?? - Economy / society

Protection System
- 6 ways of getting access into the Irish protection system:
  1. Existing Refugee Programme – “Programme Refugees”
  2. Medical Programme Refugees
  3. “Ordinary” Asylum Seekers
  4. Family Reunification Programme / other mechanisms
  5. ‘No status’ – e.g. ‘undocumented’
  6. IRPP programme – “ EU Relocation & Resettlement”
Understanding the complexity….migration, ‘refugeedom’ living or affected by HIV

• Intersectionality - *common experiences – challenges and opportunities* -

• *In general an ambiguity exists in the use of language & terminology within the discourse of ethnic diversity, health & migration at practice, research and policy level – then consider adding HIV issues*

• **What are the consequences and impact for people?**

• Categorizations – by whom / what / FOR WHAT PURPOSE? (administrative, social, cultural, language, medicalization immigration status)

• Ethnic minorities, migrants, refugees NOT homogenous groups – terminology /definitions - attention to the diversity ‘within’ and ‘between’ migrant groups.
Understanding the complexity.... (contd).

• Intersectionality (contd).

• *In the first instance are people affected by or living with HIV coming forward for support, advocacy, services etc?*

• Labelling, Stigma, Taboo, “othering”
• Entitlements - basic Needs – ‘**who is entitled to what? ‘Rights’ - Citizen V’s Non-Citizen – Questions for Health professionals / Services

• **WHAT IS THE IMPACT ON CLIENTS, HEALTH / SOCIAL CARE STAFF / SERVICES......SOCIETY ?**
Balseskin Reception Centre

- Is the largest of the Dublin Reception centres opened in late 2001 for newly arrived asylum seekers.

- Health centre opened in April 2002 – Health Service Executive.

- It is situated on a 7 acre purpose built site (North Dublin beside airport)

- Port-a-cabin-style units – shared accommodation & communal dining / social areas.

- Maximum number of residents: 369

P.J.B. 2008
Dignity

‘Quality of being worthy of respect’
‘self-importance’
‘pride’ ‘self-esteem’
self-respect’
Migrant Healthcare – vulnerability?

- ‘Push & Pull’ Factors
- Experiences prior to arrival, en route, current – regardless of migrant status
- Cultural adaptation
- Physical /Psychological
- At risk sub-groups
- Loss & Bereavement
- Trauma / Torture
- Security / Safety / Trust
- Access to services
- Effects of asylum process
- Future Prospects
WHY?

Obligations:
• Moral & Ethical
• Professional
• Statutory & Legislative

What factors are negatively impacting on these obligations?
HSE Primary Care Services at Balseskin

Health and social care provision....

“The elephant in the room” (ETHNOCENTRISM)

We need to look at ourselves & how we do things

• Socio-Cultural
• Political / Legal
• Organisations / Systems
• Professional Education
• Leadership / ‘Ignorance’

“HEARTS & MINDS”

Cultural competence
Partnership +
Empowerment = Equality
PTT Model for Developing Cultural Competence -
Underpinning Values used in Migrant Health
(Papadopoulos Tilki Taylor 1998)

- Human Rights
- Socio-Political Systems
- Intercultural Relations
- Human Ethics
- Human Caring

“The failure to provide culturally appropriate services is not always deliberate but is underpinned by ethnocentricity which assumes people of other cultures find mainstream provision acceptable and effective”

Tilki 2006
The Papadopoulos, Tilki and Taylor Model for Developing Transcultural Nursing Competence

CULTURAL AWARENESS
* Self awareness
* Cultural identity
* Heritage adherence
* Ethnocentricity
* Stereotyping

CULTURAL COMPETENCE
* Assessment skills
* Diagnostic skills
* Clinical skills
* Challenging and addressing prejudice, discrimination and inequalities

CULTURAL KNOWLEDGE
* Health beliefs and behaviours
* Ethnohistory / Anthropological understanding
* Sociological / Political understanding
* Psychological and Biological understanding
* Similarities and variations

CULTURAL SENSITIVITY
* Empathy
* Interpersonal / communication skills
* Trust
* Acceptance
* Appropriateness
* Respect

Globalisation has resulted in a shift in thinking....for us as individuals, professionals and organisations...

Where are YOU positioned as a client, health professional, manager, organisation in this process?

National immigration law is often the arena where human rights and national self interests clash and the principle of promoting the best interests of vulnerable groups can be over looked.
